ADVANCING WITH LEADING PAYMENT SERVICE PROVIDERS**

Item 5 Full Description of Material Change

5.1 Full Description of Material Change

**PILOT LAUNCH, MARKETING ROADMAP AND SOLUTION INTEGRATION
ADVANCING WITH LEADING PAYMENT SERVICE PROVIDERS**

Vancouver, British Columbia / ACCESSWIRE / June 16th, 2020 - DIGATRADE FINANCIAL CORP (OTCPK: DIGAF), www.DigatradeFinancial.com, a financial technology services company, today announced that its subsidiary, Securter Systems Inc. (“Securter”) continues development of secure on-line patent-pending fintech security assets with strategic progress, specifically, the launch of our pilot to our customers is imminent. In preparation, our team is developing marketing and sales roadmaps to secure our success and our technical team is working diligently with our Payment Service Provider (“PSP”) completing critical technology integration. We have received all the necessary data reference points for the ecommerce account set up to process online real-time payment transactions, including developer guides, Application Programming Interface “API”, Software Development Kits “SDK’s” and our Intuitive Transaction Monitoring Portal “ITMP”

Director of sales and partnerships; Rishon Talkar stated: “The silver lining of a global timeout for many business owners is the opportunity to rethink and refine their business. For an entrepreneur to bounce back and thrive, acceptance and mutation is key, delayed decision making can lead to a death blow in this new world. Environmental, technological and regulatory changes have disrupted business as we know it. I see this every day, merchants who once said no, called back and signed up. A business can’t afford to stay behind. Partners on the other hand need to promote new technology to sell, otherwise there isn’t much of a conversation they can have with merchants, as other expansion plans may have paused.”

Day-to-day activities face hard limits including in-store customer capacity and customer business interaction is becoming less personal – in summation; few aspects of the pre Covid19 business model remain unscathed. Especially prone to innovation is the medium through which commerce is conducted, a lowest common denominator for all business, money. Natural selection has marginalized the exchange of paper money and for the first-time end-of-life for this tender is conceivable. Payment processing and ecommerce platforms have been integrated to minimize both merchant-costumer contact and fraud. Securter is providing these merchants with an omni-channel and seamless payment experience, whilst providing their customers with the personalized experience and security that they have come to expect. Securter’s CEO, Steve Epstein stated “our team is focused on delivering to merchants and their customers a safe, secure & cost effective on-line transaction experience. Beyond that, we are developing solutions that address the needs and requirements of businesses as they adjust to new and onerous protocols to maintain public safety as they re-open.”

In addition, Securter Systems Inc “SSI” today provides the results of its recent shareholders meeting: All items put before shareholders where unanimously approved. All Board members and Officers were re-elected for the ensuing year.

Further information will be made available as it materializes.
